CUSTOMER EXECUTIVE BRIEFING

Customer Logo / Databricks Co-brand

Predictive + Prescriptive Maintenance for CXO Impact

Reduce operational risk, accelerate decisions, and make maintenance value highly visible on the bottom line.

Executive Priority

- Lower unplanned downtime and disruption cost
- Prioritize interventions by economic value
- Create shared truth for operations + finance

Field Team Readiness (AE + SA)

- One reusable value story across 5 industries
- Mining, Energy, Water, Automotive, Semiconductor
- Demo-to-business case in minutes

BUSINESS VALUE

Customer KPI View

From Alerts to Financial Decisions

Predictive models identify risk and remaining life; prescriptive logic recommends action sequencing with clear ROI.

OT signal drift -> Failure probability + RUL -> Recommended action -> Avoided loss vs intervention cost -> Action captured for accountability

30-50%
FEWER CRITICAL SURPRISES

2-4x
FASTER RESPONSE DECISIONS

10-20%
WASTE REDUCTION

+ROI
AVOIDED LOSS VISIBILITY

LOCALIZATION

Regional Executive Lens

Change Currency to Localize the Solution Story

Local Executive Context

- Display values in USD, AUD, JPY
- Geo and AI narratives follow selected currency
- Regional leadership sees impact in familiar units

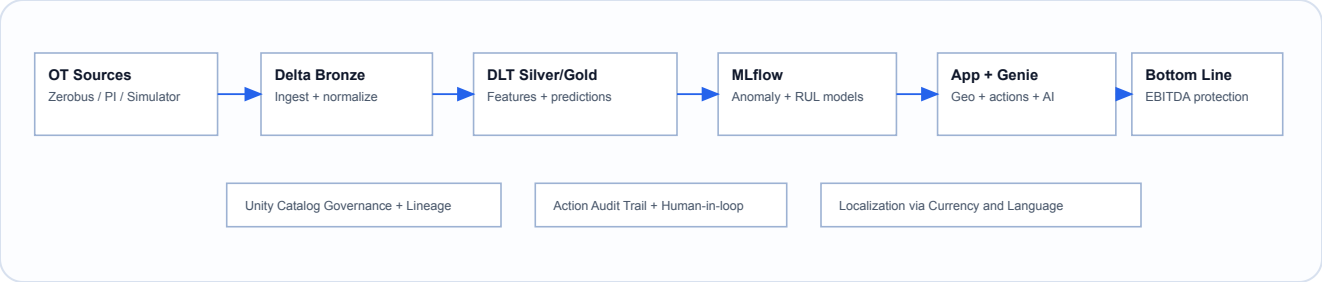
Example

- Avoided JPY 1,849,543
- Intervention JPY 507,133
- Net protected value: JPY 1,342,410

END-TO-END ARCHITECTURE

Governed Lakehouse + AI

Databricks Powers the Full Lifecycle



GOVERNANCE + TRUST

Enterprise Controls

Board-Ready: Secure, Governed, Auditable

Data Governance

- Policy controls and access governance
- Lineage from sensor to executive KPI
- Cross-industry schema consistency

AI Governance

- Model versioning and reproducibility
- Decision traceability (approve/defer/reject)
- Human accountability in final action

EXECUTIVE ASK

Next Step Decision

Approve a 30-45 Day Pilot

One site and one critical asset class to baseline downtime, validate avoided-loss economics, and establish rollout blueprint.

Pilot Scope

- Operational + financial decision cadence
- Weekly KPI and governance review
- Direct AE/SA customer narrative support

Expected Output

- Quantified bottom-line value
- Validated architecture and controls
- Scale plan across the five industries
